

The Hottest Selling Knife in the Nation...And Now there are Three!

The newest edition to the LEV-R-LOK™ Family is the #5850 Tanto Bladed version. It joins the other two models (the straight edge and the serrated blade versions) in the marketplace as the fastest opening lockback ever designed - the patented LEV-R-LOK™. Its revolutionary one-handed mechanism snaps the blade to the open and locked position with only mild pressure to the opening lever. Once open, function is similar to other single blade lockback knives in that the blade must be manually released prior to closing. Through the excellence in manufacturing at Camillus Cutlery, we have reduced the cost of this product by 50%.
